FROM IDEA TO 20,000+ UNITS

A European DTC brand partnered with HERABLEND to develop a line of 3 functional supplements for active lifestyles.

From first brief to market launch: only 10 weeks.

Within 6 months, they scaled to over 20,000 units sold — with 60% of monthly sales now from loyal repeat buyers.i

SWITCHING TO EU MANUFACTURING

A premium wellness brand moved production from Asia to HERABLEND for better quality and **full EU compliance**.

By switching, they cut delivery times by 3 weeks, eliminated customs delays, reduced import costs, and elevated product quality — strengthening partnerships with EU retailers.
